

My Way Home Summer Wellness Initiative

Summer 2023

The Innovation Centre and Ontario Health North East are delighted to share that our Summer Wellness Initiative was a great success!

With the combined effort of **13** North East Community Support Service organizations, we were able to support many individuals and families in the community.

Packages were delivered to 368 clients in the North East!

The goal of the Summer Wellness Initiative was to equip clients with essential items to ensure their safety and well-being throughout the summer season. Packages contained necessities such as sunscreen, bottled water, and fresh fruit.

We are grateful for the support of all our partners who helped make this project possible.

We are excited to share that this initiative will continue throughout 2023. Keep an eye out for information on the fall and winter initiatives!

We look forward to continuing to work together to ensure the best care and support for our clients.

All our clients were surprised and really appreciated the packages. We received several messages thanking us for the wonderful gift and they really enjoyed the fruit.

The community members really enjoyed receiving their summer packages. Pleased with the contents. Practical items such as sunglasses, hat, cooling bandana and water bottle.

Family members and care partners were so happy to hear about this program. They expressed gratitude for the packages and the visits. An extremely valuable initiative.

"Wow - I can't believe you've given me all of this for free. Thank you for taking care of the Seniors in our community. This means so much."
